Be an everyday hero!

The Eboracum - Security Challenge

You and your friends can make a real difference in preventing or reducing crime by coming up with creative ideas and solutions as part of your Crimebuster Challenge.

Some ideas to get you started:

Design a poster and leaflets for display within care homes and vulnerable persons sheltered housing in relation to 'keeping safe'. Give advice about bogus callers to the door or on the phone. Keeping doors and windows locked when not at home and using a security chain when answering the door.

Set up an on-line internet safety group workshop for vulnerable people. Explain about the use of security settings, passwords and use of anti-virus software.

Consider developing an 'App' to help advise and raise awareness of this, also use social media too:

- How to keep Information safe
- personal belongings and property secure.

Assist those feeling vulnerable by offering to work with them on daily tasks including, shopping, dog walking, car cleaning, gardening etc. Design a leaflet to advertise the free services offered.

Contact local councils and arrange to conduct a lighting survey within the local community and inform council where work needs to be carried out when lights not working. Help to keep areas well lit and safe.

If we all changed just one small thing,
then we could make a big difference!
